RAIL

Travelling by Train simply buys you more time! Many trains travel at 300km/h allowing you to move between cities quickly and efficiently avoiding traffic congestion on motorways. What does this mean? It means more time to be spent at your end destination.

Why Rail?

- Sit back, relax and let the train driver take you to your destination without a care or worry, and more importantly, without a map!
- The train will always leave and drop you off close to or within the city, avoiding the cost of an expensive taxi fare.
- No baggage restrictions on most day trains. As long as you can carry it on, you can stow it in the luggage areas provided.
- Trains don't have liquid restrictions so you will never need to throw away your bottles of water or put your hand cream in a small zip-lock bag.
- With frequent train departures, this means that you are bound to find a train time that best suits you.

With all these reasons and many more, why would you want to travel any other way.

Book a Eurail Pass by 15 March and receive full rail protection insurance for FREE
