Precision Plus – Porsche Driving Experience Level 2

Perfect for those who really enjoy a sporty driving style, Precision Plus training focuses on how to handle the vehicle and respond correctly in hazardous situations. Under professional instruction, you will learn how to approach and tackle bends correctly. Attention is paid to potential road traffic hazards. With instructors on hand you will gradually simulate the driving conditions in which the vehicle threatens to skid. Practical exercises will teach you how to retain control, even when driving at the vehicle's limits

This evening is free for you to enjoy at leisure.

- Tuesday 27th May** Porsche Driving Experience – Level 3
Check out of hotel and transfer to Mt Cotton Driver Training Centre

Performance – Porsche Driving Experience Level 3

This course is for advanced participants who have successfully completed Precision Plus training. It is designed to develop your car control skills further, with advanced tuition on steering and cornering on a challenging circuit. Performance training comprises a variety of exercises, with concentrated driving components. Special emphasis is given to driving an ideal line at high speeds and the resulting load-changing reactions, aimed at further improving your command of the vehicle. One of the main components of the course is circuit lapping, which is given further attention during the course. Here you have an opportunity to put your knowledge to the test over the entire circuit. The instructor monitors your driving on the racetrack from the lead vehicle, assessing your progress, prior to your own solo lapping.

Late this afternoon transfer from Mt Cotton to Brisbane Airport
Fly Brisbane-Christchurch this evening
